

## BIBLIOGRAPHY.

### GENERAL WORKS.

(The heavy figures refer to volumes.)

- Weinhold.* — Principles of construction of pyrometers. Pogg. Ann., **149**, p. 186; 1873.
- C. H. Bolz.* — Die Pyrometer, Eine Kritik der bisher construirten höher Temperaturmesser in wissenschaftlich-technische Hinsicht, 1888.
- C. Barus.* — Die physikalische Behandlung und die Messung höher Temperaturen, 1892, Leipzig. — Bull. U. S. Geological Survey No. **54**, 1889; No. **103**, 1893.
- Kayser.* — Handbuch der Spectroscopie, Bd. **2**, 1902. Summary of radiation methods.
- Callendar.* — Measurement of Extreme Temperatures. Nature, **59**, 1899.
- C. W. Waidner.* — Methods of Pyrometry. Proc. Eng. Soc. Western Pennsylvania, Sept., 1904.
- Waidner and Burgess.* — Establishment of High-temperature Scale. Phys. Rev., **24**, p. 441; 1907.
- Burgess.* — Estimation of High Temperatures. Proc. Am. Electroch. Soc., **11**, p. 247; 1907.
- Chwolson.* — Traité de Physique. (Instruments, Theory, Bibliography.)
- Leber.* — Ch. xiv in *Geiger's* Handbuch der Eisen- und Stahlgiesserei, 1911.

### NORMAL SCALE OF TEMPERATURES.

- Carnot.* — Reflections on the motive power of fire.
- Lippmann.* — Thermodynamics, p. 51.
- Thomson and Joule.* — Philosophical Transactions of the Royal Society, **42**, p. 579; 1862.
- Thomson (Lord Kelvin).* — Collected Papers, **1**, p. 174.
- Lehrfeldt.* — Philosophical Magazine, **45**, p. 363; 1898.
- Callendar.* — Phil. Trans., **178**, pp. 161-220; 1888.
- Regnault.* — Account of his investigations, **1**, p. 168; 1847.
- Chappuis.* — Studies of the gas thermometer. Trav. du Bureau International des Poids et Mesures, **6**, 1888.
- Chappuis and Harker.* — Trav. et Mém. du Bureau Int. des Poids et Mesures, 1900. Phil. Trans., 1900.
- Schreiber.* — Absolute Temperature. W. Beibl., **22**, p. 297; 1898.
- D. Berthelot.* — Reduction of gas-thermometer readings to the absolute scale. Trav. et Mém. du Bureau Int., **13**, 1903. C. R., **138**, p. 1153; 1904.
- Boltzmann.* — On the determination of absolute temperature. Wied. Ann., **53**, p. 948; 1894.

- E. Mach.* — Theory of Heat.  
*Callendar.* — Thermodynamical correction to gas thermometer. *Phil. Mag.*, May, 1903.  
*Rose-Innes.* — *Phil. Mag.* (6), **2**, p. 130; 1901.  
*Pellat.* — *C. R.*, **136**, p. 809; 1903.  
*Chappuis.* — *Jl. de Phys.*, **3**, p. 833; 1904. *Ann. des Poids et Mesures*, **13**, p. 23; 1907.  
*Berthelot.* — *Ann. des Poids et Mesures*, **13**, p. b3; 1907.  
*Buckingham.* — *Bull. Bureau Standards*, **3**, p. 237; 1907.  
*Rose-Innes.* — *Phil. Mag.*, **14**, p. 301; 1908.

## GAS PYROMETER.

- Prinsep.* — *Ann. Chim. et Phys.*, 2d Series, **41**, p. 247; 1829.  
*Pouillet.* — *Treatise on Physics*, 9th ed., **1**, p. 233; 1858. *Comptes Rendus*, **3**, p. 782; 1836.  
*Ed. Becquerel.* — *C. R.*, **57**, pp. 855, 902, 955; 1863.  
*Sainte-Claire-Deville and Troost.* — *C. R.*, **90**, pp. 727, 773; 1880. **45**, p. 821; 1857. **49**, p. 239; 1859. **56**, p. 977; **57**, pp. 894, 935; 1863. **98**, p. 1427; 1884. **69**, p. 162; 1864. *Ann. Chim. et Phys.* (3), **58**, p. 257; 1860. *Répert. Chim. Appl.*, p. 326; 1863.  
*Violle.* — Specific heat of platinum. *C. R.*, **85**, p. 543; 1877. Specific heat of palladium. *C. R.*, **87**, p. 98; 1878. **89**, p. 702; 1879. — Boiling point of zinc. *C. R.*, **94**, p. 721; 1882.  
*V. and C. Meyer.* — Density of halogens. *Ber. D. Ch. Ges.*, **12**, p. 1426; 1879.
