Thousands are in use by those who would not do without them for any consideration. It has enabled doctors and lawyers to resume practice teachers to resume teaching, mothers to hear the voices of their children thousands to hear their minister, attend concerts and theatres and engage in general conversation. Music is heard perfectly with it where without it not a note could be distinguished. It is convenient to carry and to use. Ordinary conversation can be heard with ease. In most cases deafness is not detected.

Full instructions will be sent with each instrument. The Audiphone is patented throughout the civilized world,
